

7th, 8th & 9th graders - Martin Luther King, Jr.'s Day - January 2021

"Injustice anywhere is a threat to justice everywhere.(...)" M.L.K., Jr.

LUDOVINA SOUSA JAN 10, 2021 04:59PM

Sharing our dreams, our wishes, our hopes ...

TOPICS

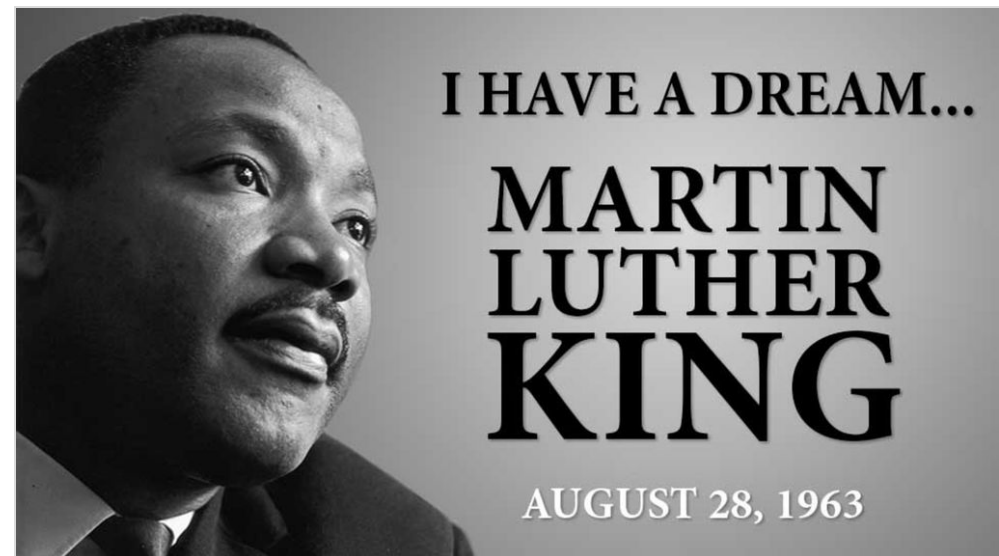

-**'I have a Dream mural'**: the dreams we have for the students in our school.

or

-**'Freedom mural'**: 'Our lives begin to end the day we become silent about things that matter.' (M. L. K., Jr.) Is it possible to have an equal world?

We all deserve equal rights no matter how different we are. We should preserve the difference. It enriches us and allows us to understand others in a better and closer way. An equal world with equal opportunities for everyone. It's a dream to come true! (L. S.)

I think it is possible to get equal rights in our world, because the kids are getting a good education and they are our future. (J. G. S., no.13, 9thB)

I have a dream that all students in this school will be happy. (M. S., 9thD)

I have a dream that the classrooms have heaters and that the students do not damage the school materials. (J. C., 9thD)

I have a dream, that all the people who are now in school will find something that will make them happy, so that one day they can look back and be proud of having followed their dreams. I mean all the students, because deep down we are all equal and we deserve the same rights and opportunities, no matter what our gender, sexuality or skin colour is. (R. D., no.23, 9thA)

I have a dream that everyone will be happy and healthy. (I. O., 9thD)

I have a dream that all my classmates have a good and long life and never give up of their dreams. (M. T., 9thD)

I think it is impossible to live in a world with equal rights because people will never stop behaving in a racist way. We will only live in an equal world if we start behaving differently. When I say 'we', I mean black and white people. (B. M. , 9thD)

I have a dream that nobody mistreats others because we are all equal and deserve to be treated with respect. (A. M., 9thD)

I have a dream that everyone can make their dreams come true and never give up. (J. C., 9thD)

I have a dream that my colleagues are motivated to continue living and that there is someone in their lives to make them happy. (M. C., 9thF)

The equal world can be possible but it may not be possible too, because there are people that can't accept that we are all different from skin colour to culture. These people have a lot of work ahead of them but it's only up to them to change that so we can live on peace. (C. A., 9thD)

I have a dream that at my school there is no bullying, prejudice and that everyone is accepted as they are. (B. P., 9thE)

I wish that in the future there will be peace and equality for all. But why not the desire for the present? Because the present is now and I know it is not happening. (S. A., 8thD)

I have a dream that students will be able to do physical education classes in a better pavilion because the one we have is too cold and it rains inside. (C. C., 9thF)

I have a dream that all students of my school have a good life, security and are free to follow their dreams. (M. M., 9thF)

I have a dream that the students of my school are not bullied. (M. B., 8thF)

My dream is that the students at my school are more responsible and respect the rules more. (G. B., 8thF)

I have a dream that all students will be happy and rich. (G. S., 9thE)

I have a dream that the students in this school will have a good and healthy life in the future. (I. A., 9thF)

I wish that students will be respectful. (J. C., 8thF)

I wish others respect each other and end violence at school as at home. They should respect each other and always help those in need like our colleagues in the unit. (A. M., 8thF)

I have a dream that everyone is respected for what they are both on the outside and on the inside and that once and for all they stop judging people by their appearance. (A. M., 8thF)

I hope that the other students will respect each other as well as the people who work for them so that they have a good future and a good job and do not become bad people. (A. R., 8thF)

I have a dream that everyone is happy and their dreams come true.
(V. P., 9thD)

I have a dream that there is no discrimination among students.
N., 9thD) (J.

I have a dream that the students don't damage the school.
9thD) (C. C.,

I have a dream of everyone respecting and accepting others as they are.
P., 8thF) (J.

I have a dream in which all school students are happy, have what to eat, and live in a world without wars and without poverty. (A. S., 9thE)

I think it is impossible to live in a world where everyone is equal, because in today's world we all have our bad side or our arrogant and greedy side and that is why it will be ALMOST impossible to live in a world where we are all the same. (L. S., 9thE)

I have a dream that my colleagues can be happy and that all their dreams come true.
(A. A., 9thE)

I have a dream in which people do not judge others on the basis of what they see.
(B. M., 8thF)

I wish every student at my school is treated as equal.
We shouldn't treat other people badly, just because they're different.
(R. G., no.21, 7thD)

My dream for my school is that those with financial difficulties can have a better future and that school should always carry out campaigns to raise some money, books, clothes and food for their families having some quality of life.
(M. F., no.12, 7thA)

I have a dream study in a school that doesn't accept homophobia and racism and thinks that both genres are equal.
(M. D., no.11, 7thB)

I have a dream that all students at all schools will respect the others although their differences.
(V. M., no.25, 7thB)

I think school could have heaters in the classrooms, for when it's cold. I also assume that school could have some whiteboards in every classrooms and school could replace the curtains in the classrooms for better ones, so that students can see better.
(S. C., no.23, 7thB)

The dreams I have for students at my school are to be tolerant, to respect equal rights, to end bullying, to accept others for their differences because everybody deserves to be treated equally regardless of their colour, gender, religion, sexuality.... , to have better living conditions , to respect COVID-19 standards and that everyone has a good future.
(L. B., no.8, 8thB)

I have a dream that at my school there could be an inequality day where boys wore skirts and girls pants to show that clothes are not gender and we are free to dress what we want to.
(C. R., no.2 , 7thB)

I think the school is good but some things could be better:
- They could finally take out the asbestos.
- The school could have a football field with grass;
- The classroom could be more comfortable and heated.
(M. D., no.19, 7thB)

I have a dream so that all students have equal rights and that they are not insulted just because they are different, because in the end, we are all humans and we go to school to learn.
(L. G., no.8, 7thA)

I have a dream that all students will become better adults who respect and help the others no matter their differences.

(S. G., no.23, 7thD)

I think my school is good, but some issues can be better:

-we can all be treated and respected in the same way;

-The projector lights could be better and

-classrooms could be hotter than they really are.

(D. C., no.3, 7thB)

My dream is that all students at my school do not insult people with disabilities. They do not need to be insulted! They need to be well treated.

(H. G., no.4, 7thA)

My dream to improve my school would be :

-More leisure areas;

-Heating in the school;

-New and more comfortable tables and chairs;

-Better access for students to go and leave school.

(B. M., no.1, 7thB)

Equal rights for everyone is a fantastic and possible dream! It's simple: just IMPROVE your attitude and behaviour starting with YOURSELF. I believe it is much more fun and will make a difference IN THE FUTURE. WE MUST STRONGLY LEARN our DUTIES and RIGHTS by respecting them and always PUTTING THEM INTO PRACTICE in our lives.

(X. O., no.25, 7thD)

I think students and teachers should have more respect for each other.

(L. M., no.10, 7thB)

I have a dream that there should be more respect inside and outside the classroom.

(D. L., no.8, 7thG)

I have a dream that we can get through this phase together but keeping the right distance from each other, so when this is over, we can say that we behaved like heroes.

(L. C., no.16, 7thG)

I would like that some people stop judging the others just for being different.

(B. S., no.3, 7thC)

I have a dream that everyone respects each other inside and outside the classroom with equal rights.

(M. B, no.15, 7thC)

I have a dream that everyone in my school is happy and healthy. (I. M., 9thE)

I have a dream that the students in my school have a good education. I want them to appreciate all the good stuff this school has to offer and that's what I want for the students in my school.

(L. S., 9thE)

I have a dream that all the students in my school have good health.

(M. R., 9thF)

I have a dream that every single student has an amazing academic future with money, peace and love. (T. A., 9thE)

I have a dream that all the students in my school, all children and people in the world have the same rights, including access to basic health care and that they are also very happy.

(H. O., 9thE)

I think that an equal world isn't possible because there will always be a group of people that don't want to respect other people and there will always be different opinions about that subject. I think Dr King's words 'Our lives begin to end the day we become silent about things that matter' mean that we can't just sit and watch the world make wrong decisions. We must speak and encourage others to do the same.

(A. B., 9thE)

I have a dream that all students in my school enjoy being at this school.

(F. P., 9thF)

I have a dream that all students in my school be engaged in studying.
(B. R., 9thF)

I have a dream that we no longer have to come to school with the mask on and that we have more practical classes. (A. S., 9thF)

I don't think it is possible to live in an equal world, because there will always be people who don't respect others and, of course, people who don't speak about important issues. As Martin Luther King said "Our lives begin to end the day we become silent..."
(B. G., 9thF)

I have a dream that all students in my school have better conditions in the classrooms.
(S. E., 9thF)

I have a dream that all students in my school do not need to wear masks any more.
(D. E., 9thF)

I have a dream that all students in my school have success and health.
(M. S., 9thF)

I have a dream that all students in my school have heaters in the classrooms and computers to work at home. (A. P., 9thF)

I have a dream that all students in my school are successful in the future, with a job they enjoy and a good life. (I. J., 9thF)

I have a dream that the students of this school have better conditions in the classrooms.
(T. P., 9thF)

I have a dream that all students in my school survive to corona virus. (J. C., 9thF)

I have a dream that this time of covid-19 passes quickly so that we all, students, teachers and staff can come to our school without a mask, which is very uncomfortable – only

then we will be able to share more affection for each other.
(I. M., 9thF)

I have a dream that the students in my school have better conditions on rainy days to shelter from rain.
(I. M., 9thF)

I have a dream that all students in my school have better conditions so that we enjoy being here.
(A. R., 9thF)

I have a dream that all students in my school have good teachers and an excellent education. (M. P., 8thF)

I have a dream that all students in my school will be blessed with health and good friends, too. (G. C., 9thF)

No matter how much we fight or protest there will always be someone richer, someone who considers himself/herself superior and that will never change. What is changing more and more every day is the 'normal mentality' and what is considered 'normal' nowadays was completely impossible some years ago, and this is changing for the better. People are more open to things and more expressive about their ideals of wrong and right – this is the most amazing part of working for a better world.
(C. H., 9thE)

My wishes for young people and teenagers are:
-May everyone have good conditions at school;
-Nobody should be treated badly or be a victim of bullying;
-May everyone have a good way of learning;
-And finally I wish everyone get along.
(N. F., no.16, 8thA)

Like Martin Luther King Jr. I have a dream.
My dream is that one day racism ends, that we can all have the same opportunities and rights without the discrimination that currently exists in the world. I also wish that people stop eating animals and, because of that, the world turns into a better and

healthier place (without the suffering of so many living beings).
(C. C., no.2, 8thA)

I think that it is possible to have an equal world, yes. We just have to do our part: fight peacefully for our rights, help people who need and fight for everyone to be seen in the same way, no matter our gender or our skin colour because in the end we are all humans. I totally agree with Martin Luther King's comment, to get these things we cannot become silent, because when we do that we lose all the things we fought for. (M. F., no.15, 9thC)

Just like Martin Luther King Jr. I have a dream. My dream can be divided into a series of smaller dreams, each one with their own meanings. I dream of a world where everyone is treated equally, without discrimination, that everyone can have a future, despite colour, race, appearance and social status. I dream of a world where schools are even better than right now, schools with heating, good teachers and school with a good environment. I dream of a world where Covid-19 is no more, and everything is well, where we can all be together and have fun again, a world where we can get through our problems together! That is my dream. (M.M.)

I think we are all responsible for the changes that the world has. A world where we are all equally capable, equally important, of equal value, without being discriminated by the colour of the skin, religion, sexuality or gender. For this to happen, changes are needed that only together can be achieved. (M. M., no.17, 9thA)

I actually think that it's possible to live in a world with equal opportunities for everyone, as long as people believe that they can do what they want to do or as long as people believe that they can reach the goal that they want to reach. I agree with Martin Luther King's quote ("Our lives begin to end the day we become silent about things that matter") because people keep only giving attention to things that don't matter at all while they could be giving attention to things that really matter. (B. S., no.1, 8thA)

We should respect each other and we must stop bullying , racism and discrimination!
(N. G., no.17, 7thC)

I wish equal rights for every human being.
I want to help the world to understand that it doesn't matter if you are black, white or

Asian!
People should be aware that everyone is the same, so we mustn't judge other people if they're different.
(A. A., no.2, 7thG)

Like Martin Luther King Jr. I have a dream.
My dream is to live in peace, to be in a school with better conditions, to live in a world with equal rights for everybody and that humans are safe from Covid-19 .
(M. C., no.14, 7thA)

I have a dream that all students would have equal rights and that they would never be discriminated just because they are different, because in the end, we should know...all different ...all equals. (L. G., no. 8, 7thA)

I have a dream that no one will suffer from prejudice.
We must respect and live with the differences that are a part of our world!
Say no to racism, to discrimination, to war!
Say yes to equality for everybody!
(M. C., no.12, 8thB)

I have a dream that all students at my school won't be bullied. That they'll have good teachers and a good education, that students will be more careful concerning covid-19 and that all of them will have good parents to help them in everything.
(T. B., no.24, 7thA)

I have a dream that school has better teaching materials and that teachers are important for life.
To improve its structure, to receive more students, to be more available to listen to their students.
We can have clubs, like dance clubs, music among others.
And at last I dream my school can be considered a modern one!
(L. M., no.1, 7thA)

"I have a dream" that all children have the right to give their opinions freely and the right of participating in the discussions that affect their lives and themselves.
(D. A., no.9, 8thC)

The teenagers at my school and other schools in the world shouldn't be judging and make fun with other people. I agree with this quote "Our lives begin to end the day we become silent about things that matter", because we give more importance to things that do not matter. (T. D., no.21, 8thA)

I think it's possible to have an equal world because children today have a good education on the part of teachers and that matters. However I think it's a very difficult issue. We will only reach several generations from now. (J. S., no.14, 8thC)

I think that it is possible to have an equal world, if everyone understands that all rights are equal and that people should be respected no matter their differences. (V. P., no.29, 9thA)

My dream is that all children can have the same access to education as I do, whether with quality teachers, or with technologies and infrastructure that I have at my school. (M. F., no.18, 9thC)

It is difficult to have an equal world because nobody is equal. And I agree with what Martin Luther King says in his quote ("Our lives begin to end the day we become silent about things that matter.") because we fail giving importance to what doesn't matter. (M. M., no.16, 8thA)

Yes, I think it is possible to have an equal world, because with today's education in schools and the education of our parents we will be able to have a world where everyone is treated equally. (M. T., no.17, 8th C)

I think that an equal world, without racism and prejudice against others is important, we all deserve and are worthy of equal rights. (S. S., no.27, 9thA)

I think it is possible to have an equal world if nobody is prejudiced and everyone is treated with the same rights.

The day we stop thinking about the things that matter, people will stop caring, so the more we talk about the things that really matter, the more likely they are to happen. (M. F., no.16, 9thA)

Yes, I believe that it is possible to have an equal world, but to achieve it, it takes a lot, for example, people should stop being mean to each other and stop having prejudice in relation to certain things. (A. R., no.2, 9thA)

I think that it's possible to have an equal world, however we need to keep fighting for it. Everyone is different, so respecting each other is an important attitude to achieve an equal world. (M. R., no.18, 9thA)

I think it's possible to live in a world with equal opportunities to everyone because although there is still a lot of racism the world is evolving and there is less and less discrimination among people. There are even protests like BLM, for example. (I. A , no.7 , 8thA)

I think that an equal world is possible and I also think that the world is ready but it can be even better if we all contribute to achieve that goal. (F. D., no. 10, 9thC)

I think it is possible to have an equal world from the moment everyone starts to think the same way, that is, people who are silent should say something! (T. D., no.25, 9thC)

I think it is possible to get equal rights in our world, because our society is getting educated differently and our generation has a different mindset about racism. Why should the colour of our skin change the way we are treated? We all have the same emotions and we should all be treated the same. (B. F, no.3, 9thC)

I think that the world will be equal one day, but not right now because there are still people who decide to be silent about things that matter. (M. R, no. 16, 9thC)

I think the world will never have equality even if you try because when making an effort people always end up differentiating genders, skin colours and any kind of problem that makes it impossible for someone to do something.

(C. C., no. 6, 9thC)

I would like that my school had better PCs and Internet that everyone could use.

(N. C., no.20, 9thA)

I have a dream that my class may achieve their goals. We should be able to follow our dreams and never give up!

(F.G., no.9, 9thC)

In my opinion I think that Martin Luther King's day is very important because it celebrates the evolution of equal rights and less racism.

(P. M., no. 22, 9thA)

In my opinion Martin Luther King Jr 's day is very important because he was a person who fought for human rights.

(L. F.; no.14; 9thA)

In my personal opinion, I think it is possible to have an equal world as long as we keep fighting for it, which leads to my answer to the other question, because if we keep our silence in things that matter we will slowly destroy the rights that so many people fought for.

(P.S., no. 21, 9thA)

In my opinion, I think it is possible to have an equal world, but it is a long and difficult way to go. Only if human mindsets change, can we think about having a world with justice. To achieve that, parents should be able to give their children a good education. I think we must believe, hope and work hard.

(S.L., no. 21, 9thC)

I think it is not possible to have an equal world because each person chooses the way he/she wants to live in the world. Everyone has different ways of thinking, of seeing the world differently and each person interprets what he/she hears in different ways.

(B. N., no.4, 8thC)

I think Martin Luther King , Jr. is very important not only for America but also for all countries in the world. This day is very special because it marks the life of this man who fought against racism and who defended that we are all the same no matter the colour of our skin.

(B.P., no.3, 9thA)

In my opinion an equal world is a world where there are no genders, races and religions for certain professions. I believe that our society and this new generation can change the world in this regard.

(G. C, no.11, 9thC)

In my opinion, it's possible to have an equal world. We simply have to get to work! Our lives begin to end the day we become silent about things that matter, that's why we need to act.

We live in a society surrounded by opinions, corruption, and protesters. This helps us be more comfortable about fighting for what matters.

This year, people have already fought for equal rights thanks to the movement “Black Lives Matter” or “BLM” and they received results.

Not everything is perfect, but things are starting to evolve for the better. For example, in NYC, there's a police department towards youth and social services.

I think that Martin Luther King Jr. would be proud of this and more.

(L. S., no.13, 9thC)

In my opinion I think that it is possible to have an equal world. It makes no sense you can't talk freely about several issues only because you are a woman or you are a black person, for example.

I agree with Martin Luther king's comment, we can't be silent about things that matter!

(X. D., no.26, 9thC)

I think that it is impossible to have an equal world. However, of course we can improve. But for that the mentality of our society has to change and the best way to get that is educating younger children to respect the fellow man, because no one is more or less than others.

(C. S., no.5, 9thC)

An equal world is a world where everyone gets treated the same way, no matter what race people are.

I think that is possible if we work very hard. (D. A., no.8, 9thC)

An equal world is a dream that can come true, It doesn't matter if you are black, yellow, white or brown, we are all humans and that's what really matters.
(C. T., no.4, 9thC)

I think it is possible to get equal rights in our world but for that the society has to change and kids need to be educated and polite about this. Not only at schools but they should be educated and polite at home, too. And people should start respecting each other.
(C. S., no.6, 8thC)

I think it could be possible to have an " equal world " if everyone tried to be respectful and treat everyone in the same way.
(M. G., no.19, 9thB)

In my opinion, we all have the right to be free (to be ourselves), because in this world there are many people with a lack of character, homophobic people, among others. I wish there will be more respect/ civility among the entire population, as everyone has rights such as to be happy and be respected in their own way .
(M. Z., no.20, 9thB)

I think it's possible to have an equal world where people respect each other no matter what is the colour of their skin. It's hard because there are some people that still think racism is cool and it's a good thing but it's not and that was the reason that Martin fought for. All lives matter!
(M. D., no.18, 9thB)

I think his idea is good but unlikely to come true because there are bad people who have no good intentions. Despite this, I hope that one day it can be fulfilled!
(F. A., no.8, 9thB)

I think his dream is actually impossible because there are 'brain dead teenagers' that don't respect anything, and anybody. Sometimes people with 18 years old or older don't respect anyone. (A. L., no.1, 9thB)

I think it's possible to have an equal world. You just need to learn to respect people and promote non-violent solutions. We are all the same, regardless of religion, colour and race .
(R. V., no.24, 9thB)

Yes, I think it is possible to have an equal world because we must believe in what we want and leave nothing unsaid. We must always say what we think and we must not argue or fight if we hear a mean comment about us or other people. We cannot please everyone, we just have to feel good about ourselves.
(B. P. L., no.4, 9thB)

I think his dream will never come true because society does not respect differences. People get along and live in peace.
(J. C., no.12, 9thB)
